IV. Complete the text with the words given in the box.

There is ONE extra word. (1,5 points)

follow - trends - shoppers - most - responsible - are - famous

FASHION CHANGES

Online shopping has changed the world of fashion. We can buy clothes from all over the world, compare prices and find the best places to shop. What other things have changed the fashion world?

There are a lot of new people starting new (1), especially teenagers. Some of them are (2) like Romeo Beckham, but many are normal teenagers who use social media to show people how to dress well. A lot of people (3) them on social media, so clothing companies now look at their ideas. These teenagers don't just follow fashion, they make it. To them, it doesn't matter if something is old or new. The (4) important thing is that it looks good.

Many people buy their clothes online, but shopping centres (5) still very busy. There are lots of clothes shops to choose from. Some shops use unusual ideas to try and get more customers. For example, many (6)..... have been to visit Jonny Cupcakes and it's an experience they won't forget. It's a clothes shop that smells of cakes and sugar!

1. trends

2. famous

3. follow

4. most

5. are

6. shoppers

V. Read the passage and do the following tasks. (2,0 points)

SOLAR POWER

Solar power has become one of the most important alternative energy when people are running out of natural resources like coals, oils or forests due to many reasons. First, it is a non-polluting and abundant source of energy. It does not pollute the air by releasing harmful gases like carbon dioxide, nitrogen oxide or sulphur oxide. So, the risk of damage to the environment is reduced. More importantly, solar energy can be used to produce electricity as long as the sun exists and of course sunlight is available everywhere. In addition, to generate electricity from solar power, people only need some solar panels, which are easy to be installed. And finally, this energy from the sun can be used in remote locations, where running power lines are difficult or costly. Solar panels can be set up as long as they receive the sunlight.

(Source: Mastermind)

*Complete the answers with information from the passage. (WRITE NO MORE THAN THREE WORDS)

1. What has solar power become when people are running out of natural resources?

→ It has become one of the most **important alternative energy** when people are running out of natural resources.

2. Why is solar power clean?

→ Because it does not pollute the air by **releasing harmful gases** like carbon dioxide, nitrogen oxide or sulphur oxide.

*Write full answers to the questions with information from the passage.

3. When can solar energy be used to produce electricity?

→ Solar energy can be used to produce electricity as long as the sun exists and of course sunlight is available everywhere.

4. To generate electricity from solar power, what do people only need?

→ People only need some solar panels to generate electricity from solar power.

VI. Rewrite the following sentences as directed. (2,0 points)
